Knaack is a manufacturer of commercial and construction tool boxes. Briggs & Stratton is pleased to be the supplier of the lock.

## 701589 CODED SERVICE LOCK

The subject is a replacement lock for the Knaack Tool Box Lock.

This is a side-bar construction similar to previous AMC locks.

## 608695 LOCK SERVICE PACKAGE

The subject is the Lock Service Package #608695 that will service the Knaack Tool Box Lock.

This is a side-bar design similar to previous AMC locks.

The servicing of this assembly is relatively simple with the most difficult job of staking the production caps.

The key code is stamped on the tail of the lock.

The replacement key is a Chrysler Blank #321074.

The key groove is 60.

The key code series is K001-K100.
