

2009 AUTOMOTIVE LOCK & KEY CATALOG

AUTOMOTIVE LOCK & KEY CATALOG

2009

Welcome to the new 2009 STRATTEC™ Lock and Key Catalog. We're sure you'll find this quick reference tool a handy source for servicing the new 2009 cars and trucks out on the road today.

Ordering STRATTEC™ original automotive parts means you'll receive the same quality parts designed and manufactured for the original vehicle. Just place your order with a local distributor in your area. Their names are listed on the back cover. And thanks for choosing STRATTEC™ as your original parts source.

DISCOVERING THE PARTS YOU NEED

To make it easier for you to locate parts you need, we've arranged the catalog alphabetically by manufacturer, vehicle division and nameplate.

If you need to service an Dodge Durango, for example, first look for Dodge. Then, locate Durango. Here, you'll find key blanks, caps and shutters, ignitions, doors, decks/tailgates/rear doors and glove boxes in one easy-to-locate chart. You'll also find that most nameplate listings include manufacturers' platform designations. For example, the platform designation for Ford Taurus is D186.

We organized the illustrations by manufacturer, not by division or nameplate.

We've also condensed the part number series for sequential tumblers. For example, you'll see: Tumblers (#1 – #5) 322251 – 322255.

WATCH FOR HELPFUL SYMBOLS

When you see this symbol ♦ you'll know this is a new part or part number for 2009, not found in previous catalogs or price lists.

DEFINING TERMINOLOGY

- **Alarm** – A factory-installed anti-theft system
- **Dual** – Lock service package containing both black and chrome components
- **Electric** – Refers to an actuating switch on the back of the cylinder to perform an automatic power function, not to be confused with a power lock
- **Fleet** – Single-key vehicles, all keyed alike
- **PASSKey** – Replaces VATS in GM terminology, refers to the key and pellet system introduced in 1986
- **PassLock** – MRD – Separate GM security system from the Pass Key, relies on a magnetic rotating device contained in the cylinder housing, introduced in 1996
- **PATS** – Ford Passive Anti-Theft System, with a transponder in the key that operates with radio frequency, introduced in 1996
- **RFID** – Radio Frequency Identification utilizes Transponder Technology.
- **U Groove** – GM's unrestricted groove refers to uncoded cylinders, lock service packages and lock assemblies, accepts all GM key sections A – K.
- **Universal** – Part may vary from production model in color or material, but will fit and function properly, typically applies to nonhanded parts.
- **IPATS** – Ford's next generation Transponder Encrypted Technology, introduced in 2000.
