PROFESSIONAL'S CHOICE CATALOG

MODEL YEARS 1983-1997

Welcome! You'll notice a few changes since our last Professional's Choice catalog. We've developed a new format that will help you quickly locate the parts and illustrations you need.

Look for several new additions to the 1997 Professional's Choice, making it the industry's most comprehensive single source for original service parts on domestic vehicles. We've included more Lock Service Packages for Chrysler, Ford, GM and Heavy Trucks, a new STRATpack™ Service Kit section and an expanded Marine and Industrial listing. Plus, our improved key blank section gives a broader reference for original parts.

WATCH FOR HELPFUL SYMBOLS

- NOTE:** appearing throughout the catalog to call your attention to changes, unique situations or to offer application hints.
- ◆ appearing next to part numbers to direct you to footnotes at the bottom of the page.

DEFINING NEW TERMINOLOGY

- **Alarm** – A factory-installed anti-theft system
- **Dual** – Lock service package containing both black and chrome components
- **Electric** – Refers to an actuating switch on the back of the cylinder to perform an automatic power function, not to be confused with a power lock
- **Fleet** – Single-key vehicles, all keyed alike
- **PASS-Key** – Replaces VATS in GM terminology, refers to the key and resistor pellet system introduced in 1986
- **PATS** – Ford Passive Anti-Theft System, with a transponder in the key that operates with radio frequency technology, introduced in 1996
- **U Groove** – GM's unrestricted groove refers to uncoded cylinders, lock service packages and lock assemblies, accepts all GM key sections A – K
- **Universal** – Part may vary from production model in color or material, but will fit and function properly, typically applies to nonhanded parts

ABBREVIATIONS

- **GRV** = groove
- **PTL** = Push-to-lock
- **PB** = Push button
- **TG** = Tailgate
- **DWO** = Discontinued When Out. Designates parts that will be unavailable after current inventory is sold.

APPLICATION GUIDE

We've organized these charts to make it easier for you to locate the parts you need. They are arranged alphabetically by manufacturer, division and nameplate. For example, to find a Chevrolet Lumina, you'd look under General Motors. Next, find the Chevrolet section, then locate the vehicle name alphabetically. Here you will find base level trim parts. Where optional equipment exists, you will notice this symbol (◆) referring you to the optional equipment chart, found on page 35.

It is essential to obtain proper year, make and model information from your customer. Should you discover a discrepancy, recheck the information and/or check one model year ahead or behind to cover mid-year introductions.

PART ILLUSTRATIONS

We've organized these alphabetically by manufacturer, starting with key blank components for locks and service package sets. The sections are arranged in the following order: key blanks, tumblers and springs, caps and shutters, ignitions, doors, decks/tailgates/rear doors, glove/console/miscellaneous and lock sets.

NOTE: All coded and uncoded lock service package numbers on the left represent base model packages. If the vehicle you're servicing has one of the options listed in the middle column, please use the coded and uncoded lock service package numbers on the right.
For locks requiring black caps or shutters use part numbers from cap and shutters section.
