FOR ORIGINAL LOCK SERVICE PARTS

Model Years 1994 - 2008

VAST ALLIANCE

PROFESSIONAL'S CHOICE CATALOG

MODEL YEARS 1994–2008

Welcome to the 2008 STRATTEC Professional's Choice Catalog, the industry's most comprehensive single source for original service parts on domestic vehicles. We've included more Lock Service Packages for Chrysler, Ford, GM, Heavy Trucks and Mitsubishi, and we've expanded the STRATpack® Service Kit, Marine and Industrial sections.

Ordering STRATTEC original automotive parts means you'll receive the same quality parts designed and manufactured for the original vehicle. Just place your order with a local distributor in your area. Their names are listed on the back cover. And thanks for choosing STRATTEC as your original parts source.

Watch for helpful symbols

appearing throughout the catalog to call your attention to changes, unique situations or to offer application hints.

◆ appearing next to part numbers to direct you to footnotes at the bottom of the page.

Defining new terminology

- **Alarm** – A factory-installed anti-theft system
- **Dual** – Lock service package containing both black and chrome components
- **Electric** – Refers to an actuating switch on the back of the cylinder to perform an automatic power function, not to be confused with a power lock
- **Fleet** – Single-key vehicles, all keyed alike
- **PASS-Key** – Replaces VATS in GM terminology, refers to the key and pellet system introduced in 1986.
- **PASS-Lock** – MRD – Separate GM security system from the Pass-Key, relies on magnetic rotating device contained in the cylinder housing, introduced in 1996.
- **PATS** – Ford Passive Anti-Theft System, with a transponder in the key that operates with radio frequency, introduced in 1996.
- **RFID** – Radio Frequency Identification, utilizes transponder technology.
- **U Groove** – GM's unrestricted groove refers to uncoded cylinders, lock service packages and lock assemblies, accepts all GM key sections A – K.
- **Universal** – Part may vary from production model in color or material, but will fit and function properly, typically applies to nonhanded parts.

Application Guide

We've organized these charts alphabetically by manufacturer, division and nameplate. *For example, to find a Chevrolet Lumina, you'd look under General Motors. Next, find the Chevrolet section and locate the vehicle name alphabetically. Here you will find base level trim parts.* Where optional equipment exists, you will notice this symbol (◆) referring you to the optional equipment chart, found on page 46.

It is essential to obtain proper year, make and model information from your customer. Should you discover a discrepancy, recheck the information and/or check one model year ahead or behind to cover mid-year introductions.

Part Illustrations

We've organized these alphabetically by manufacturer, starting with key blank components for locks and service package sets. The sections are arranged in the following order: key blanks, tumblers and springs, caps and shutters, ignitions, doors, decks/tailgates/rear doors, glove/console/miscellaneous and lock sets.

Contents:

	APPLICATION GUIDE PAGES	PART ILLUSTRATION PAGES
CHRYSLER: CHRYSLER - DODGE - DODGE TRUCK - JEEP - PLYMOUTH	3–11	48–60
FORD: FORD - FORD TRUCK - LINCOLN/MERCURY - MAZDA/FORD - NISSAN/FORD	11–19	61–66
GENERAL MOTORS: BUICK - CADILLAC - CHEVROLET - CHEVROLET TRUCK GMC TRUCK - HUMMER - ISUZU/GM - OLDSMOBILE - PONTIAC	19–36	67–89
HEAVY TRUCKS: FREIGHTLINER - KENWORTH - MACK - NAVISTAR - PETERBILT - VOLVO/GM	36–40	90–91
MARINE/INDUSTRIAL		92–93
MITSUBISHI	40–41	94–95
SATURN	41	96
XTENDED LINE KEYS	42–45	97–98
KITS/TOOLS AND EQUIPMENT		99–106
OPTIONAL EQUIPMENT CONVERSION CHART	46	
QUICK-CODE™ APPLICATION GUIDE	107–109	

ABBREVIATIONS:

- GRV = Groove
- PTL = Push-to-lock
- R/W = Read/Write
- PB = Push button
- TG = Tailgate
- DWO = Discontinued When Out. Designates parts that will be unavailable after current inventory is sold.

All coded and uncoded lock service package numbers on the left represent base model packages. If the vehicle you're servicing has one of the options listed in the middle column, please use the coded and uncoded lock service package numbers on the right

For locks requiring black caps or shutters use part numbers from the cap and shutters section.

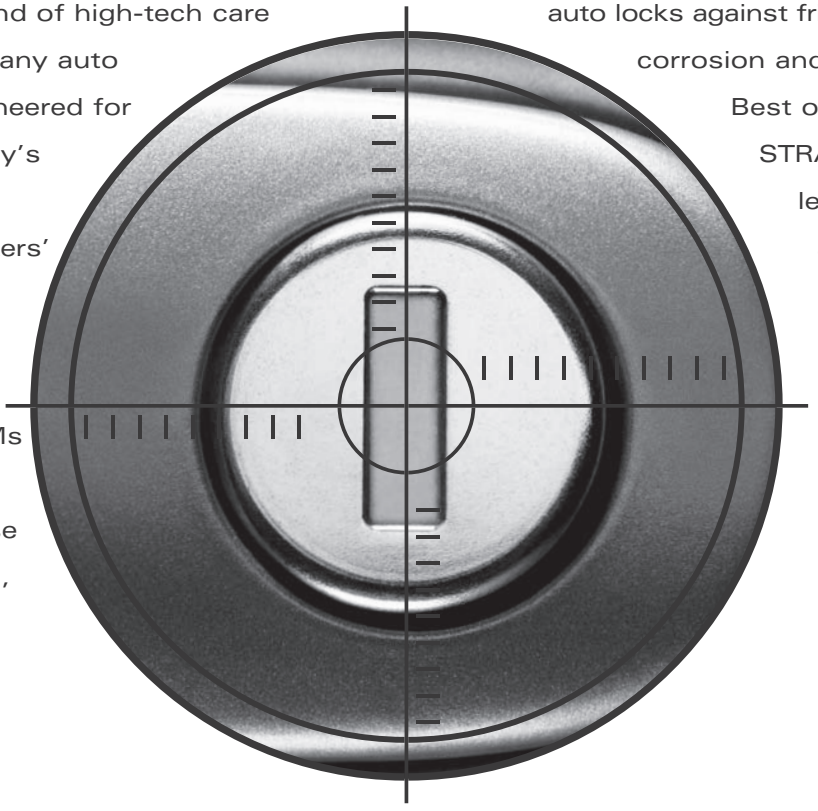
Targeted care for automotive locks.

Zeroing in on the right lubricant for automotive locks is, well, a lock.

With each squeeze of its easy trigger control, LokShot™ Synthetic Aerosol Lubricant from STRATTEC fires a round of high-tech care deep into the heart of any auto lock mechanism. Engineered for the complexity of today's auto locks, LokShot is formulated to automakers' specifications, with a formula comparable to the lock lubricant major automobile OEMs use at the factory.

With its superior base and advanced additives, LokShot coats interior lock components with a long-lasting, thin film of pure synthetic grease – with zero solvents that actually break grease down. So it effectively lubricates and protects auto locks against friction, oxidation, corrosion and other problems.

Best of all, LokShot is from STRATTEC – the industry leader in aftermarket auto lock technology and a knowledgeable expert you trust. Scope out the advanced care of LokShot. The right lube. The right delivery. Lock and load.



Pinpoint delivery.
A rugged spray head, easy-squeeze trigger and sturdy nozzle straw help you get past the lock shutter to apply grease deep inside the lock mechanism for precise, thorough, lasting lubrication.

500% more grease lubricant with no harmful solvents. LokShot's unique, patented formula delivers 500% more grease than other so-called auto lock "lubricants" with none of the solvents.

Works well in any environment. LokShot maintains its lubricating effectiveness even under extreme conditions and temperatures ranging from -80°F to +600°F.

Part No. 692781

Petroleum-free formula won't attract dirt. Synthetic LokShot doesn't attract the dirt and grit that can gum up locks.

Stays where you spray it. LokShot won't run or drip off like an oil, thanks to its synthetic formula.

Handy built-in straw storage.
No more losing that little red straw – a convenient straw holder is molded right into the spray head.
