1996

AUTOMOTIVE LOCK & KEY CATALOG

AUTOMOTIVE LOCK & KEY CATALOG

1996

WELCOME TO A NEW COMPANY AND NEW CATALOG FORMAT.

In February of 1995, Briggs & Stratton Technologies became an independent company and changed its name to STRATTEC SECURITY CORPORATION. Although our name has changed, what you've come to expect from our products hasn't.

Ordering STRATTEC™ original automotive parts means you'll receive the same quality parts designed and manufactured for the original vehicle. Just place your order with a local distributor in your area. Their names are listed on the back cover. And thanks for choosing STRATTEC as your original parts source.

DISCOVERING THE PARTS YOU NEED

We've reorganized our catalog to make it easier for you to locate parts you need. A glance down at the Contents section shows what we mean. We've arranged the catalog alphabetically by manufacturer, vehicle division and nameplate.

If you need to service an Oldsmobile Achieva, for example, first look for General Motors. Next, find the Oldsmobile section, then locate the vehicle name alphabetically. Here, you'll find key blanks, caps and shutters, ignitions, doors, decks/tailgates/rear doors and glove boxes in one easy-to-locate chart. You'll also find that most nameplate listings include manufacturers' platform designations. For example, Chevrolet Cavalier is a J-Body and the Ford Taurus is DN101.

Some nameplates have the exact same parts as another nameplate with the same platform, so we listed the parts only once but refer you to the proper page number. *For example, the Chevrolet Lumina APV has the same parts listing as the Pontiac Transport. For the Transport parts we refer you to the Lumina listing that appears first in the catalog.*

We organized the illustrations by manufacturer, not by division or nameplate, following a similar order as the previous charts. You'll notice some consolidated categories in this section.

Another change from the previous catalog is the tumbler listing. We condensed the part number series for sequential tumblers. For example, you'll see: Tumblers (#1 – #5) 320291 – 320295. Within a nameplate listing, we printed the full series of tumbler part numbers only once if they're identical to each other.

WATCH FOR HELPFUL SYMBOLS

When you see this symbol ◆ you'll know this is a new part for 1996, not in previous catalogs or price lists.

◆ NOTE: appearing throughout the catalog will call your attention to changes, unique situations or to offer application hints.

DEFINING NEW TERMINOLOGY

- ◆ **Alarm** – A factory-installed anti-theft system
- ◆ **Dual** – Lock service package containing both black and chrome components
- ◆ **Electric** – Refers to an actuating switch on the back of the cylinder to perform an automatic power function, not to be confused with a power lock
- ◆ **Fleet** – Single-key vehicles, all keyed alike
- ◆ **PASS Key** – Replaces VATS in GM terminology, refers to the key and pellet system introduced in 1986
- ◆ **PASS Lock** – MRD – Separate GM security system from the PASS Key, relies on a magnetic rotating device contained in the cylinder housing, introduced in 1996
- ◆ **PATS** – Ford Passive Anti-Theft System, with a transponder in the key that operates with radio frequency, introduced in 1996
- ◆ **U Groove** – GM's unrestricted groove refers to uncoded cylinders, lock service packages and lock assemblies, accepts all GM key sections A – K
- ◆ **Universal** – Part may vary from production model in color or material, but will fit and function properly, typically applies to nonhanded parts

ABBREVIATIONS

- ◆ **grv.** = groove
- ◆ **PTL** = Push-to-lock
- ◆ **PB** = Push button
- ◆ **TG** = Tailgate
