AUTOMOTIVE LOCK & KEY CATALOG
1999

Welcome to the new 1999 STRATTEC Lock and Key Catalog. We're sure you'll find this quick reference tool a handy source for servicing the new 1999 cars and trucks out on the road today.

Ordering STRATTEC™ original automotive parts means you'll receive the same quality parts designed and manufactured for the original vehicle. Just place your order with a local distributor in your area. Their names are listed on the back cover. And thanks for choosing STRATTEC as your original parts source.

DISCOVERING THE PARTS YOU NEED

To make it easier for you to locate parts you need, we've arranged the catalog alphabetically by manufacturer, vehicle division and nameplate.

If you need to service an Oldsmobile Achieva, for example, first look for General Motors. Next, find the Oldsmobile section, then locate the vehicle name alphabetically. Here, you'll find key blanks, caps and shutters, ignitions, doors, decks/tailgates/rear doors and glove boxes in one easy-to-locate chart. You'll also find that most nameplate listings include manufacturers' platform designations. For example, Chevrolet Cavalier is a J-Body and the Ford Taurus is DN101.

Some nameplates have the exact same parts as another nameplate with the same platform, so we listed the parts only once but refer you to the proper page number. ***For example, the Chevrolet Venture has the same parts listing as the Pontiac Transport. For the Transport parts we refer you to the Venture listing that appears first in the catalog.***

We organized the illustrations by manufacturer, not by division or nameplate, following a similar order as the previous charts.

We've also condensed the part number series for sequential tumblers. For example, you'll see: Tumblers (#1 – #5) 320291 – 320295. Within a nameplate listing, we printed the full series of tumbler part numbers only once if they're identical to each other.

WATCH FOR HELPFUL SYMBOLS

When you see this symbol ◆ you'll know this is a new part for 1998, not found in previous catalogs or price lists.

NOTE: appearing throughout the catalog will call your attention to changes, unique situations or to offer application hints.

DEFINING TERMINOLOGY

- **Alarm** – A factory-installed anti-theft system
- **Dual** – Lock service package containing both black and chrome components
- **Electric** – Refers to an actuating switch on the back of the cylinder to perform an automatic power function, not to be confused with a power lock
- **Fleet** – Single-key vehicles, all keyed alike
- **PASS Key** – Replaces VATS in GM terminology, refers to the key and pellet system introduced in 1986
- **Passlock** – MRD – Separate GM security system from the PASS Key, relies on a magnetic rotating device contained in the cylinder housing, introduced in 1996
- **PATS** – Ford Passive Anti-Theft System, with a transponder in the key that operates with radio frequency, introduced in 1996
- **U Groove** – GM's unrestricted groove refers to uncoded cylinders, lock service packages and lock assemblies, accepts all GM key sections A – K
- **Universal** – Part may vary from production model in color or material, but will fit and function properly, typically applies to nonhanded parts

ABBREVIATIONS

- **GRV.** = Groove
- **PB** = Push button
- **PTL** = Push-to-lock
- **TG** = Tailgate

GM PASS-KEY*

The PASS-Key ignition lock, formerly known as VATS, helped usher in a new age of high-security automotive locks by integrating mechanical and electronic features. The single-sided 6-Cut or two-sided 10-Cut key blades contain resistor chips with one of the 15 different values. A correctly cut key with a resistor value matching that stored in the onboard computer allows the car to start. PASS-Key was introduced on the 1986 Corvette and quickly reduced thefts by 45 percent. Due to its effectiveness, this exclusive STRATTEC product is now standard equipment on 26 GM models and almost 10 million vehicles on the road today.

Part numbers: single-sided 594201 - 594215; double-sided 596772 - 596785; corporate double-sided 598512 - 598525

FORD 8-CUT IGNITIONS

The Ford 8-Cut ignition features a radio frequency transponder in the head of the key. With the 8-Cut key in the keyway, the transponder sends its unique code, one of a trillion possibilities, to an antenna mounted in the steering column. The car will start if the code relayed from the antenna is recognized by the onboard computer.

Part numbers: 703241, 703242, 703370, 703371, 703596

FORD STRATPACK™ PINNING KIT

The new Ford 8-Cut locks are hitting the road, and you'll be ready with the original equipment pinning kit from STRATTEC. The kit comes with all the components you'll need, saving time and money over ordering parts individually.

Part number: 703373

NEXT GENERATION PASS-KEY* INTERROGATOR

Great things come in small packages. This pocket size interrogator can be used on GM vehicles equipped with the PASS-Key security system. Cutting duplicate keys or generating new keys when an original is not available is easily and efficiently done with Strattec's *Next Generation* PASS-Key Interrogator. It reads the pellet resistor value of the PASS-Key blank, and can display the PASS-Key values on a digital display. The unit also comes equipped with a built-in four minute timer for interrogation purposes.

Part number: 704500; deluxe kit 704520

CHRYSLER STRATPACK™ PINNING KIT

This kit will help you service new locks on model year vehicles. It includes the new wider rock-in-style tumblers and springs. A new snap-in style shutter assembly will also make it easier for you to assemble door and deck lock service packages.

Part number: 703927

FORD CAPPING TOOL

Designed specifically for Ford 8-cut locks, this capping tool does the job quickly and easily. It's safer and faster than using a screwdriver, and it offers the secure, custom fit available only from the original equipment manufacturer.
