NOTE:

On-Board Programming for use in most GM vehicles for model years 2006-2010. Some vehicles may require a dealer or aftermarket programming tool. Most GM vehicles for model years 2011-2012 require a dealer or aftermarket programming tool.

USE THIS PROCEDURE FOR VEHICLES WITH DRIVER INFORMATION CENTER BUTTONS**RELEARN REMOTE**

This display allows you to match Remote Keyless Entry (RKE) transmitters to your vehicle. This procedure will erase all previously learned transmitters. Therefore, they must be relearned as additional transmitters.

1. Press the vehicle information button until PRESS V TO RELEARN REMOTE displays.
2. Press the set/reset button until REMOTE LEARNING ACTIVE is displayed.
3. Press and hold the lock and unlock buttons on the first transmitter at the same time for about 15 seconds. On vehicles with memory recall seats, the first transmitter learned will match driver 1 and the second will match driver 2. A chime will sound indicating that the transmitter is matched.
4. To match additional transmitters at this time, repeat Step 3. Each vehicle can have a maximum of eight transmitters matched to it.
5. To exit the programming mode, you must cycle the key to LOCK/OFF.

USE THIS PROCEDURE FOR VEHICLES WITHOUT DRIVER INFORMATION CENTER BUTTONS**RELEARN REMOTE**

To access this display, the vehicle must be in P (Park). This display allows you to match Remote Keyless Entry (RKE) transmitters to your vehicle. This procedure will erase all previously learned transmitters. Therefore, they must be relearned as additional transmitters. To access this display, the vehicle must be in Park (P) with key in the on position (as far as you can go without cranking engine)

1. Press the trip odometer reset stem until RELEARN REMOTE KEY displays.
2. Press and hold the trip odometer reset stem for three seconds. The message REMOTE KEY LEARNING ACTIVE will display.
3. Press and hold the lock and unlock buttons on the keyless remote at the same time for approximately 15 seconds. A chime will sound indicating that the remote is programmed.
4. To program additional remotes at this time repeat step 3. This vehicle can have a maximum of eight remotes programmed.
5. To exit programming mode turn key off and remove key. Test remote(s).

VEHICLES EQUIPPED WITH A DRIVERS INFORMATION CENTER OR DIC

1. Insert key and turn to ON position so you can access Driver Information Center.
2. Press the vehicle information button until "PRESS TO RELEARN REMOTE KEY" displays
3. Press the set/reset button until "REMOTE KEY LEARNING ACTIVE" displays.
4. Press and hold the lock and unlock buttons on the first keyless remote at the same time for approximately 15 seconds. (On vehicles with memory recall seats, the first remote learned will match driver 1 and the second will match driver 2.)
5. To program additional remotes at this time, repeat step 4. This vehicle can have a maximum of eight remotes programmed.
6. To exit programming mode, **turn key off and remove key. Test remote(s).**

Except Lincoln LS before 2002 (must use OEM Programmer)

To reprogram the remote entry transmitters:

1. Ensure the vehicle is electronically unlocked.
2. Put the key in the ignition.
3. Turn the key from the LOCK position to RUN.
4. Cycle eight times rapidly (within 10 seconds) between the LOCK position and RUN. NOTE: The eighth turn must end in the RUN position.
5. The doors will lock, then unlock, to confirm that the programming mode has been activated.
6. Within 20 seconds press any button on the remote entry transmitter. NOTE: If more than 20 seconds have passed you will need to start the procedure over again.
7. The doors will lock, then unlock, to confirm that this remote entry transmitter has been programmed.
8. Repeat Step 6 to program each additional remote entry transmitter.
9. Turn the ignition to the LOCK position after you have finished programming all of the remote entry transmitters.
10. The doors will lock, then unlock, to confirm that the programming mode has been exited.

Focus 2000-2007 Close doors, buckle seat belts, off to on 4x, tone, then depress remote button.

1. Start with key out of ignition, driver's door is open all others closed and driver's door is unlocked.
2. Insert key into the ignition (Do NOT Turn) and Pull key out.
3. Perform these steps within 40 seconds.
 - a. Using the power lock switch on the driver's door, perform 5 lock/unlock cycles starting with lock. Use an even pace and try to go about one cycle per second (1 Cycle = 1 lock and 1 unlock).
 - b. Close, then open driver's door.
4. Perform these steps within 40 seconds.
 - a. Using the power lock switch on the driver's door, perform 5 lock/unlock cycles starting with lock. Use an even pace and try to go about one cycle per second (1 Cycle = 1 lock and 1 unlock).
 - b. Insert the key in the ignition cylinder.
 - c. Turn the ignition to ON (Do NOT Start) then back to OFF once to program remote while retaining the original remote codes. Twice to erase all original codes and add new remote. Three times to check how many remotes are programmed or five times to erase all original codes.
 - d. Remove the key from the ignition.
5. Within 3 seconds the power door locks should cycle automatically indicating successful entry into programming mode. Return to step 1 if the locks do not cycle at this point.
6. Perform these steps within 40 seconds.
 - a. Press the lock and unlock buttons on the remote simultaneously for 1 second.
 - b. Immediately after letting go of the lock and unlock buttons, press the lock button itself and hold for 2 seconds. Within 3 seconds, the door locks should cycle once indicating successful programming. If the door locks do not cycle, or cycle twice. Repeat steps A and B in step 6 as your remote has not been accepted.
 - c. Repeat steps A and B in step 6 for each new remote.
7. Close driver's door.

1. Start with key out of ignition, driver's door is open all others closed and driver's door unlocked.
2. Perform these steps within 5 seconds.
 - a. Insert key into the ignition (Do NOT Turn). Pull key out.
 - b. Insert key into the ignition (Do NOT Turn). Pull key out.
3. Perform these steps within 40 seconds.
 - a. Close, then open the driver's door.
 - b. Close, then open the driver's door.
 - c. Insert the key into the ignition (Do NOT Turn). Pull key out.
4. Perform these steps within 40 seconds.
 - a. Close, then open the driver's door.
 - b. Close, then open the driver's door
 - c. Insert the key into ignition and leave it in ignition.
 - d. Close the driver's door.
 - e. Turn ignition to ON (Do NOT Start) then back to OFF.
 - f. Remove the key from the ignition.
5. Within 3 seconds the power door locks should cycle automatically indicating successful entry into programming mode. Return to step 1 if the locks do not cycle at this point.
6. Perform these steps within 40 seconds.
 - a. Press the lock and unlock buttons on the remote simultaneously for 1.5 seconds.
 - b. Immediately after letting go of the lock and unlock buttons, press the lock button itself and hold for 2 seconds. Within 3 seconds, the door locks should cycle once indicating successful programming. If the door locks cycle twice, repeat steps A and B in step 6 as the remote has not been accepted.
 - c. Repeat steps A and B in step 6 for each new remote.
7. Open driver's door.

ALL KEY FOBS MUST BE PRESENT WHEN PROGRAMMING NEW FOBS

(Old remotes are eliminated: by oldest one first as new remotes are programmed into the vehicle)

1. Close and lock all doors with the driver's side power lock/unlock switch.
2. Insert key into ignition and remove it from the ignition key cylinder at least six times within 10 seconds. Your Hazard Lamps will flash if you performed this step successfully. NOTE: Withdraw key completely from ignition cylinder each time. If this procedure is performed too fast, the system will not enter programming mode.
3. Insert key into the ignition cylinder and turn to the ACC position.
4. Within 5 seconds, push ANY button on the remote transmitter. Your Hazard Lamps should flash.

NOTE:

Do not press the button more than one time in the above step. If the button is pressed more than one time, the programming procedure will not be successful.

5. If there are any remaining transmitters (including the old ones), unlock then lock all doors using the driver's side power lock/unlock switch and within 5 seconds, push ANY button on the next remote. Your Hazard Lamps should flash. Repeat this step for each transmitter (including any existing transmitters).
6. Turn the key to the OFF position, remove keys from the ignition, unlock doors using the driver's side power lock/unlock switch and open the driver side door.
7. Test remote (s).

You must program the remote's unique 8 digit code into the vehicle to complete programming. A label with an eight-digit number is located on the outside of the remote. Original remotes will have this code on the circuit board inside the remote.

1. To begin sit in the driver's side seat and close all doors including the trunk.
2. Within 45 seconds open and close the driver's door one time.
3. Turn the ignition key from Lock to ON 10 times within 15 seconds. End in the locked position.
DO NOT REMOVE KEY!
4. A buzzer sound and interior light may continue to flash until remote codes are completely registered. Continue to the next step even if there is no sound or flashing light. If you did not perform the previous steps with 45 seconds programming may be unsuccessful.
5. If the previous steps were completed in 45 seconds, open and close the driver's door. An electronic tone will begin to sound.
6. Use the power lock button located on the door to enter the 8 digit code before the chime stops.
7. Push the power lock button to the lock position the same number of times as the 1st. number of the 8 digit code.

EXAMPLE: - 64241132 - Press power lock button to lock 6 times.

8. When complete push power lock button to unlock 1 time.
9. Continue to enter the remaining numbers of the code using the instructions in step 7 & 8 until all 8 digits of the code have been entered.
10. When finished entering all 8 digits, push the power lock button to unlock one time and then repeat entering the code a second time.
11. When the eight digit code has been entered twice an electronic tone will sound for 30 seconds or locks will cycle. After the tone or cycle ends, start the vehicle, turn off vehicle and remove key.
12. To complete programming test remote. If remote does not lock or unlock vehicle start steps from beginning.
13. Repeat process to add any additional remotes.

ON-BOARD PROGRAMMING INSTRUCTIONS #1

*Lock or Unlock

Programming with a Recognized Transmitter (Keyless Access Vehicles Only) A new transmitter can be programmed to the vehicle when there is one recognized transmitter. To program, the vehicle must be off and all of the transmitters, both currently recognized and new, must be with you.

1. Place the recognized transmitter(s) in the cupholder.
2. Insert the vehicle key of the new transmitter into the key lock cylinder located on the outside of the driver door and turn the key to the unlock position five times within ten seconds. The Driver Information Center (DIC) displays READY TO LEARN ELECTRONIC KEY #2, 3, 4, ETC.
3. Place the new transmitter into the transmitter pocket. The transmitter pocket is inside the center console storage area located between the driver and front passenger seats. The storage area will need to be opened and the storage tray lifted up to access the transmitter pocket. Cadillac SRX Owner Manual - 2010 Black plate (7,1) Keys, Doors and Windows 1-7
4. Press the ignition. When the transmitter is learned the DIC display will show that it is ready to program the next transmitter.
5. Remove the transmitter from the transmitter pocket and press K* on the transmitter. To program additional transmitters, repeat Steps 3 through 5. When all additional transmitters are programmed, press and hold the ignition for 5 seconds to exit programming mode.

ON-BOARD PROGRAMMING INSTRUCTIONS #2

Programming without a Recognized Transmitter (Keyless Access Vehicles Only) If there are no currently recognized transmitters available, follow this procedure to program up to eight transmitters. This feature is not available in Canada. This procedure will take approximately 30 minutes to complete. The vehicle must be off and all of the transmitters you wish to program must be with you.

1. Insert the vehicle key of the transmitter into the key lock cylinder located on the outside of the driver door and turn the key to the unlock position five times within ten seconds. The Driver Information Center (DIC) displays REMOTE LEARN PENDING, PLEASE WAIT.
2. Wait for ten minutes until the DIC displays PRESS ENGINE START BUTTON TO LEARN and then press the ignition. The DIC displays will again show REMOTE LEARN PENDING, PLEASE WAIT.
3. Repeat Step 2 two additional times. After the third time all previously known transmitters will no longer work with the vehicle. Remaining transmitters can be relearned during the next steps. The DIC display should now show READY FOR REMOTE # 1. Cadillac SRX Owner Manual - 2010 Black plate (8,1) 1-8 Keys, Doors and Windows.
4. Place the new transmitter into the transmitter pocket. The transmitter pocket is inside the center console storage area located between the driver and front passenger seats. The storage area will need to be opened and the storage tray lifted up to access the transmitter pocket.
5. Press the ignition. When the transmitter is learned the DIC display will show that it is ready to program the next transmitter.
6. Remove the transmitter from the transmitter pocket and press K* on the transmitter. To program additional transmitters, repeat Steps 4 through 6. When all additional transmitters are programmed, press and hold the ignition for 5 seconds to exit programming mode.

ON-BOARD PROGRAMMING INSTRUCTIONS #1

*Lock or Unlock

Programming with a Recognized Transmitter (Keyless Access Vehicles Only) A new transmitter can be programmed to the vehicle when there is one recognized transmitter. To program, the vehicle must be off and all transmitters, both currently recognized and new, must be with you.

1. Place the recognized transmitter(s) in the cupholder. Cadillac ATS Owner Manual - 2013 - crc - 6/5/12 Black plate (6,1) 2-6 Keys, Doors, and Windows.
2. Remove the key lock cylinder cap. See Door Locks on page 2 10. Insert the vehicle key into the key lock cylinder on the driver door handle, then turn the key counterclockwise to the unlock position five times within 10 seconds. The Driver Information Center (DIC) displays READY TO LEARN ELECTRONIC KEY #2, 3, 4, ETC.
3. Place the new transmitter into the transmitter pocket. The center console storage area will need to be opened to access the transmitter pocket.
4. Press the START/STOP button. When the transmitter is learned, the DIC display will show that it is ready to program the next transmitter.
5. Remove the transmitter from the transmitter pocket and press K* or Q* on the transmitter. To program additional transmitters, repeat Steps 3–5. When all additional transmitters are programmed, press and hold the START/STOP button for approximately 12 seconds to exit programming mode.

ON-BOARD PROGRAMMING INSTRUCTIONS #2

Programming without a Recognized Transmitter (Keyless Access Vehicles Only) If there are no currently recognized transmitters available, follow this procedure to program up to eight transmitters. This feature is not available in Canada. This procedure will take approximately 30 minutes to complete. The vehicle must be off and all transmitters to be programmed must be with you.

1. Remove the key lock cylinder cap. See Door Locks on page 2 10. Insert the vehicle key into the key lock cylinder on the driver door handle, then turn the key counterclockwise to the unlock position five times within 10 seconds. The Driver Information Center (DIC) displays REMOTE LEARN PENDING, PLEASE WAIT. Cadillac ATS Owner Manual - 2013 - crc - 6/5/12 Black plate (7,1) Keys, Doors, and Windows 2-7
2. Wait for 10 minutes until the DIC displays PRESS ENGINE START BUTTON TO LEARN and then press the START/ STOP button. The DIC display will again show REMOTE LEARN PENDING, PLEASE WAIT.
3. Repeat Step 2 two additional times. After the third time all previously known transmitters will no longer work with the vehicle. Remaining transmitters can be relearned during the next steps. The DIC display should now show READY FOR REMOTE # 1.
4. Place the new transmitter in the transmitter pocket. The center console storage area will need to be opened to access the transmitter pocket.
5. Press the START/STOP button. When the transmitter is learned, the DIC display will show that it is ready to program the next transmitter.
6. Remove the transmitter from the transmitter pocket and press K* or Q* on the transmitter. To program additional transmitters, repeat Steps 4–6. When all additional transmitters are programmed, press and hold the START/STOP button for approximately 12 seconds to exit programming mode.

TRANSPONDER PROGRAMS SEPARATELY FROM RKE W/ A DIAGNOSTIC TOOL

1. Sit in car with doors and windows closed.
2. Lock doors with power door lock switch on driver's door.
3. Put in and pull out key from ignition approx. 8 times or until you see the hazard/turn signal lights flash.(older models lights may flash after 4 or 5 times) you need to do that in less than 10 sec
4. When hazard lights flash (on 2005 and newer models the gauge needles may jump a little instead), put key in ignition and turn to the acc position. (when your hazard lights flash your car is sending a signal to be received by the remote)
5. Press lock button on the new remote, lights should flash again. If you have 2 remotes, 1 new and 1 old or 2 new ones, please continue with steps 6 and 7. If not, skip to end.
6. Press unlock button on driver's door, then lock button on driver's door, lights will again flash
7. Press lock button on 2nd new or old remote. Lights again will flash.

TRANSPONDER PROGRAMS SEPARATELY FROM RKE W/ A DIAGNOSTIC TOOL

1. Close and lock all doors with the driver's side power lock/unlock switch.
2. Insert key into ignition and remove it from the ignition key cylinder at least six times within 10 seconds. Your Hazard Lamps will flash if you have performed this step successfully. NOTE: Withdraw key completely from ignition cylinder each time. If this procedure is performed too fast, system will not enter programming mode.
3. Insert key into the ignition cylinder and turn to the ACC position.
4. Within 5 seconds, push ANY button on the remote transmitter. Your Hazard Lamps should flash.

NOTE:

Do not press the button more than one time in the above step. If the button is pressed more than one time, the programming procedure will not be successful.

5. If there are any remaining transmitters (including the old ones), unlock then lock all doors using the driver's side power lock/unlock switch and within 5 seconds, push ANY button on the next remote. Your Hazard Lamps should flash. Repeat this step for each transmitter (including any existing transmitters).
6. Turn the key to the OFF position, remove keys from the ignition, unlock doors using the driver's side power lock/unlock switch and open the driver side door.

TRANSPONDER PROGRAMS SEPARATELY FROM RKE W/ A DIAGNOSTIC TOOL

1. Within 4 seconds: Press LOCK button or UNLOCK button of first remote transmitter.
2. Within 4 seconds: Switch ignition OFF.
3. Within 4 seconds: Switch ignition ON.
4. Repeat procedure above twice.
5. Within 4 seconds: Press LOCK button or UNLOCK button of first remote transmitter. System should now lock and unlock vehicle to indicate remote programming mode activated.
6. Within 10 seconds:
Press LOCK button or UNLOCK button of first remote transmitter, allowing doors to lock and unlock once. Press LOCK button or UNLOCK button of each remaining remote transmitter to be programmed, allowing doors to lock and unlock once as each remote transmitter is programmed.
7. Switch ignition OFF.
8. Remove key.

TRANSPONDER PROGRAMS SEPARATELY FROM RKE W/ A DIAGNOSTIC TOOL

1. ENTER the vehicle and CLOSE all doors. (Each of the following steps must be completed within five seconds of one another. If you take longer than five seconds between steps or make a mistake, you must start the entire procedure over.)
2. INSERT the key into the Ignition, HOLD one remote in your left hand with additional remotes close by.
3. PERFORM each of the next three (3) steps in order, then repeat all three (3) steps three (3) more times for a total of four (4) times each.
4. TURN the Ignition to the ON position, marked "II" on the Ignition. WAIT for a quiet clicking sound from the vehicle.
5. PRESS the LOCK button on the remote for approximately 1 second. (Say "Mississippi")
6. TURN the Ignition to the OFF position, marked "I" on the Ignition. (REPEAT Steps 4-6 three (3) more times)
7. During the fourth (4th) cycle of these steps, the door locks should cycle indicating the vehicle has ENTERED Programming Mode.
8. Within five (5) seconds of entering Programming Mode, PRESS the LOCK button again on the same remote. The door locks should cycle again indicating the vehicle has successfully PROGRAMMED that remote.
9. For programming additional remotes to your vehicle, REPEAT Step 8 with each additional remote one after another. Step 8 must be completed within five (5) seconds for each additional remote. You may program up to three (3) remotes to your vehicle.
10. TURN the ignition to OFF.
11. Test all remotes. Programming is now complete.
12. After successful programming, if your remote has a TRUNK RELEASE / REAR LIFTGATE Button — you will need to hold that button down for 5-10 seconds for that function to begin operation.

**TRANSPONDER PROGRAMS SEPARATELY FROM RKE W/ A DIAGNOSTIC TOOL.
ORIGINAL KEY MUST HAVE AN "L" ON THE BLADE**

1. ENTER the vehicle and CLOSE all doors. (Each of the following steps must be completed within five seconds of one another. If you take longer than five seconds between steps or make a mistake, you must start the entire procedure over.)
2. INSERT the key into the Ignition, HOLD one remote in your left hand with additional remotes close by.
3. PERFORM each of the next three (3) steps in order, then repeat all three (3) steps two (2) more times for a total of three (3) times each.
4. TURN the Ignition to the ON position, marked "II" on the Ignition.
5. PRESS the LOCK button on the remote.
6. TURN the Ignition to the LOCK position, marked "0" on the Ignition. (REPEAT Steps 4-6 two (2) more times)
7. TURN the Ignition to the ON position, marked "II" on the Ignition.
8. PRESS the LOCK button on the remote, the door locks should cycle indicating the vehicle has ENTERED Programming Mode.
9. Within five (5) seconds of entering Programming Mode, PRESS the LOCK button again on the same remote. The door locks should cycle again indicating the vehicle has successfully PROGRAMMED that remote.
10. For programming additional remotes to your vehicle, REPEAT Step 9 with each additional remote one after another. Step 9 must be completed within five (5) seconds for each additional remote. You may program up to three (3) remotes to your vehicle.
11. TURN the ignition to the LOCK position, marked "0" on the Ignition to EXIT Programming Mode.
12. Test all remotes. Programming is now complete.

1. ENTER the vehicle and CLOSE all doors. (Each of the following steps must be completed within five seconds of one another. If you take longer than five seconds between steps or make a mistake, you must start the entire procedure over.)
2. INSERT the key into the Ignition, HOLD one remote in your left hand with additional remotes close by.
3. PERFORM each of the next three (3) steps in order, then repeat all three (3) steps two (2) more times for a total of three (3) times each.
4. TURN the Ignition to the ON position, marked "II" on the Ignition.
5. PRESS the LOCK button on the remote for approximately 1 second. (Say "Mississippi")
6. TURN the Ignition to the OFF position, marked "I" on the Ignition. (REPEAT Steps 4-6 three (3) times)
7. TURN the Ignition switch to the ON position, marked "II" on the Ignition.
8. PRESS the LOCK button on the same remote. The door locks should cycle indicating the vehicle has ENTERED Programming Mode.
9. PRESS the LOCK button again on the same remote. The door locks should cycle again indicating the vehicle has successfully PROGRAMMED that remote.
10. For programming additional remotes to your vehicle, REPEAT Step 9 with each additional remote one after another. Step 9 must be completed within ten (10) seconds for each additional remote. You may program up to three (3) remotes to your vehicle.
11. TURN the ignition to OFF.
12. Test all remotes. Programming is now complete.
13. After successful programming, if your remote has a TRUNK RELEASE Button — you will need to hold that button down for 5-10 seconds for that function to begin operation.

TRANSPONDER PROGRAMS SEPARATELY FROM RKE W/ A DIAGNOSTIC TOOL

1. Start with the key out of the ignition, driver's door is open, all other doors and trunk closed and driver's door is unlocked.
2. Perform these steps within 5 seconds. A. Insert the key into the ignition (Do NOT Turn it) and Pull key out. B. Insert the key into the ignition (Do NOT Turn it) and Pull key out.
3. Perform these steps within 40 seconds. A. Close then open the driver's door. B. Close then open the driver's door. C. Insert the key into the ignition (Do NOT Turn it) and Pull key out.
4. Perform these steps within 40 seconds. A. Close then open the driver's door. B. Close then open the driver's door. C. Insert the key into ignition and leave it in the ignition. D. Close the driver's door. E. Turn the ignition to ON (Do NOT Start or crank engine) then back to OFF. F. Remove the key from the ignition.
5. Within 3 seconds, the power door locks should lock then unlock automatically indicating successful entry into programming mode. Return to step 1 if the door locks do not cycle at this point.
6. Perform these steps within 40 seconds. A. Press the lock and unlock buttons on the remote simultaneously for 1.5 seconds. B. Immediately after letting go of the lock and unlock buttons, Press the lock button by itself and hold for 2 seconds. Within 3 seconds, the door locks should lock and then unlock once indicating successful programming. If the door locks cycle twice, repeat steps A and B in step 6 as the remote was not accepted. C. Repeat steps A and B in step 6 for each new remote.
7. Open driver's door. Test all remotes. Programming is complete.

1. Start with key out of the ignition, open and unlock driver's door and be sure all other doors and trunk are closed.
2. Insert key into ignition (Do not turn) and pull it out.
3. Perform these steps within 40 seconds. A. Using the power door lock rocker switch on driver's door perform 5 lock/unlock cycles starting with lock. Use an even pace and try to go about one cycle per second. (1 cycle = 1 lock and 1 unlock.).
4. Close, then open driver's door.
5. Perform these steps within 40 seconds. A. Using the power door lock rocker switch on driver's door perform 5 lock/unlock cycles starting with lock. Use an even pace and try to go about one cycle per second. (1 cycle = 1 lock and 1 unlock.) B. Insert the key in the ignition cylinder. C. Turn the ignition to ON (Just shy of starting car, Do NOT Start) then back to OFF. D. Turn the ignition to ON (Just shy of starting car, Do NOT Start)) then back to OFF. E. Remove the key from the ignition.
6. Within 3 seconds the power door locks should cycle automatically indicating successful entry into programming mode. Return to step 1 if the locks do not cycle at this point, if they do cycle then continue to step 7.
7. Perform these steps within 40 seconds. A. Press the lock button on the remote for 1 second. B. Now press the lock button by itself and hold for 2 seconds. Within 3 seconds the door locks should cycle once indicating successful programming. If the door locks don't cycle or cycle twice, repeat steps A and B, your remote has not been accepted. C. Repeat steps A and B in step 7 for each new transmitter.
8. Close driver's door. Test all remotes. Programming is complete.

DRIVER'S DOOR OPEN, KEY REMOVED FROM IGNITION SWITCH

1. Within 5 seconds: Insert and remove the key from the ignition switch twice.
2. Within 40 seconds: Close and open driver's door twice. Insert and remove the key from the ignition switch.
3. Within 40 seconds: Close and open driver's door twice. Insert the key into the ignition switch and close the driver's door.
4. Switch ignition ON and OFF once to program a remote transmitter code whilst retaining the original codes or twice to program a remote transmitter code whilst erasing the original codes.
5. Remove key from ignition switch: System should now lock and unlock vehicle once, twice or five times depending which mode has been selected. One to four times, slowly, to indicate number of remote transmitters registered.
6. Within 40 seconds: Press and hold LOCK and UNLOCK remote buttons simultaneously for 1.5 seconds.
7. Within 3 seconds: Press LOCK button. System should now lock and unlock vehicle once to confirm registration, twice to indicate registration has failed.
8. Within 40 seconds: Repeat button procedure to program remaining remote transmitters.

NOTE:

To exit programming mode: Open driver's door.

A maximum of 4 remote transmitters can be programmed.

DRIVER'S DOOR OPEN, KEY REMOVED FROM IGNITION SWITCH

1. Insert and remove the key from the ignition switch 2 times within 5 seconds.

NOTE: Steps 2 and 3 should be performed within 40 seconds.

2. Close and open driver's door TWICE.
3. Insert the key into the ignition and remove it.

NOTE: Steps 4 - 6 should be performed within 40 seconds.

4. Close and open the driver's door twice.
5. Insert the key into the ignition.
6. Close the door.

1. Turn ignition switch to ON (II)
2. Press the LOCK or UNLOCK button on one of the remotes. (An unprogrammed remote can be used for this step.)
3. Turn ignition switch to ACCESSORY (I) or LOCK (O)
4. Turn ignition switch to ON (II)
5. Press the LOCK or UNLOCK button on one of the remotes.
6. Turn ignition switch to ACCESSORY (I) or LOCK (O)
7. Turn ignition switch to ON (II)
8. Press the LOCK or UNLOCK button on one of the remotes.
9. Turn ignition switch to ACCESSORY (I) or LOCK (O)
10. Turn ignition switch to ON (II)
11. Press the LOCK or UNLOCK button the same remote. Make sure the power door locks cycle to confirm you are in programming mode.
12. Press the LOCK or UNLOCK button on each remote you want to program. Make sure door locks cycle after you push each remote button to confirm system has accepted the remote.
13. Turn the ignition switch to LOCK (O) to exit programming mode.
14. Test remote(s)

1. Begin with the key out of the ignition
2. OPEN and UNLOCK the DRIVERS side door. Make sure all other doors including the trunk are closed.
3. INSERT the key into the ignition and PULL IT OUT
4. Locate the driver's side door lock/unlock switch
5. Press the LOCK then UNLOCK the switch 5 times.

NOTE:

Try to pace yourself to 1 second for each LOCK and UNLOCK sequence.
Lock/Unlock/Lock/Unlock/Lock/Unlock/Lock/Unlock/Lock/Unlock

6. CLOSE and OPEN the DRIVERS side door
7. Press the LOCK then UNLOCK the switch 5 times. (Try to pace yourself to 1 second for each LOCK and UNLOCK sequence. Lock/Unlock/Lock/Unlock/Lock/Unlock/Lock/Unlock/Lock/Unlock)
8. INSERT the KEY into the ignition
9. Switch the ignition to ON then OFF TWICE (ON/OFF/ON/OFF)
10. REMOVE the key from the ignition
11. The door locks will cycle (lock and unlock) to confirm successful entry into programming mode
12. PUSH and RELEASE the LOCK and UNLOCK button on the first remote you are programming at the SAME TIME (Does not matter which remote you program first)
13. As soon as you let go PUSH and HOLD the lock button on the SAME REMOTE for 2 seconds. The door locks will cycle to confirm successful programming of the remote.
14. Repeat steps 12 and 13 for each additional remote you wish to program. If you have no additional remotes, proceed to step 15.
15. Close the DRIVERS side door. Programming is now complete.

ONBOARD PROGRAMMING FOR THE REMOTE PORTION:

1. Insert key into ignition, do not turn on.
2. Short Pins 1 and 4 in the OBD2 Port.
3. Within 10 Seconds of shorting the pins push the Hazzard Switch six times. The door locks will cycle.
4. Push the lock button on the first remote three times within 10 seconds. The door locks will cycle if the remote was recognized.
5. Follow this same step for any additional remotes.
6. Remove the short on Pins 1 and 4 on the OBD2 Connector.
7. Remove the Key from the Ignition.
8. Test all remotes
